

Planning Table

An electric, height adjustable touch screen offering the user great flexibility, from a seated workshop to a stand-up meeting station at the press of a switch. Powered by twin motors, maximum height is achieved via three-section telescopic legs.

Robust Full HD Multi-Touch Display

Full HD 42" touch screen utilises projective capacitive touch technology up to 55 simultaneous touch points. The touch monitor is commercial quality which allows for extended 24/7 use and extreme reliability. The display is protected with vandal resistant glass.
